

Woods' Great Peppermint Cure

ton. And only one little tablet before each meal is required for this remarkable and gratifying result. Forruettes are sold by all Chemists at 5/3 per cartain; also by Anthony Hordern and Sons, Washington Street, Pattinson and Co., Chemists, Sydney; or direct from A. H. Henshall, Chemist, 246 Clarendon-street, South Melbourne, Victoria.—Advr.

FOR NEW ARRIVALS.

CHURCH OF ENGLAND HOME.

RECEIVING IMMIGRANTS.

Two of the additional six houses in Cumberland-street, which are to be placed by the Government at the disposal of the Church of England Home for Immigrants, have now been opened. These are in addition to the original establishment in Prince-street, and the agency is at present able to accommodate about 120 persons at a time. In a few days the third house will be handed over, and operations will then be considerably extended.

The agency has three assistants working with the manager, Mr. Ernest Cross. Immigrants bringing immigrants are continually arriving, and the work of the institution is growing. The committee and its sub-committee hold regular meetings, and the members are greatly interested in the arrangements for the reception of the people coming from the old country to start life afresh in Australia, who, as each vessel arrives, are met by the officers on the steamers. The manager frequently goes aboard at the Heads. He generally has a number of names which have been sent to him in advance, and besides meeting these for whom housing has been secured, he gets into touch with a great many others, who have not had the benefit of assistance in this direction before embarking. When his duties are completed, he takes up to direct them to boarding-houses in a suitable locality. He also keeps in communication with various employers of the newcomers are sent to employment.

The agency aims at getting the immigrants out into the country, and to the country the majority go. "It is wonderful how New South Wales is absorbing the large number who are arriving," said the chairman of the committee, Archdeacon D'Arcy Irvine, yesterday. The members of the committee are very much impressed with this fact.

The important question in carrying out the good offices undertaken by the agency is that of furniture. Of course, only those articles indispensable to a resting place, where the immigrant can be made to feel at home, so that he may make his start in the new land in good heart, are being obtained. As was pointed out by the Archdeacon recently, in making an appeal for £1500 to enable the work to be developed, and to provide furniture, much is done to help the immigrants when they land, which cannot be tabulated. The work of securing apartments, advice and information given, and the continual acts of courtesy and kindness, no one could desire to have numbered and registered.

METHODIST MISSION EFFORTS.

ACCOMMODATION FOR 200.
The Methodist mission, headed by the Rev. W. G. Taylor and P. J. Stephens, is launching out in a new way to help the new arrivals. A building near the Circular Quay is now being fitted up, at a cost of £1500, for the reception of new arrivals, and will be opened normally in a few days. The building is situated in a quiet street, and is well adapted for the purpose. It is a place the immigrants simply pass through. Nevertheless they appear to be made so comfortable that they do not wish to go to their homes again for a night's lodging.

THE PRESBYTERIAN CHURCH.

KEEPING IN TOUCH WITH IMMIGRANTS.
The Presbyterian Church has in operation a complete system in dealing with immigrants. The first that is missing is the home in Sydney, but this is now well on its way to completion. An appeal for £1000 has been made to the Church people, and some substantial amount has been received. The church is also engaged in a campaign of public relations, including one of £100. It is expected that the home will be finished in a few days. The church is also engaged in a campaign of public relations, including one of £100. It is expected that the home will be finished in a few days. The church is also engaged in a campaign of public relations, including one of £100. It is expected that the home will be finished in a few days.

BAPTIST CHURCH PROPOSALS.

At the present time the Baptist Church is considering a scheme for housing the immigrants belonging to that church. For two or three years past the church has been very active in helping the new arrivals. The church is also engaged in a campaign of public relations, including one of £100. It is expected that the home will be finished in a few days.

WHAT IS THE GOVERNMENT DOING?

For some time past the Government has been endeavoring to secure a suitable home for the new arrivals. The Government is also engaged in a campaign of public relations, including one of £100. It is expected that the home will be finished in a few days.

SUFFERING WITH RHEUMATISM FOR YEARS.

After several years I suffered with rheumatism. I was unable to get up in the morning, and I was in great pain. I tried many remedies, but nothing helped. I was then advised to try Angier's Emulsion. I took a bottle, and in a few days I was able to get up. I was then advised to try Angier's Emulsion. I took a bottle, and in a few days I was able to get up. I was then advised to try Angier's Emulsion. I took a bottle, and in a few days I was able to get up.

BUILDINGS AND WORKS.

PROGRESS OF THE TRADE.

REMODELING PREMISES.

Under the direction of Mr. Burcham Clapp, architect, a contract was let last week on behalf of the City of Sydney Investment Company, Limited, of which Mr. J. J. Mulligan, solicitor, is chairman of directors, to Mr. W. E. Cornack, builder, of Manly, for the erection of extensive additions and alterations to four buildings situated at the corner of Liverpool and Nicholas streets, Sydney. The additions comprise the erection of a building on the corner of the lot, five stories high, in addition to a two-story and a promenade. The ground floor of the building is to be converted into modern four high-class shops, with marble and brass floors. The upper floors of the present building are to be subdivided to suit professional shops into suites of offices.

CITY BOUNDARY STORIES.

In the office of Messrs. Eaton and Watson, architects, a contract has been signed for the erection of large bonded stores at the Circular Quay for Messrs. Upward and Co. The buildings will have a frontage to George-street North, also to Hickson-road, of 150ft each, and a depth of 70ft. The total area of the site is 10,500 sq. ft. The buildings will be five stories high, of brick, the frontages to both streets being finished with red brick, and the side walls with arches, strings, etc. There will be four two-story wings. The stores will be fitted with electric lifts, hoists, and travelling cranes. Everything will be of the most modern; every convenience will be had, also good lighting, ventilation, etc. The buildings will have a commanding view from the Circular Quay. The contractor is Mr. Chas. Schultz.

CEMENT SHORTAGE.

There is a demand for cement at the present time, which probably constitutes a record. The result is a shortage in supplies. The members of the committee are very much impressed with this fact. The important question in carrying out the good offices undertaken by the agency is that of furniture. Of course, only those articles indispensable to a resting place, where the immigrant can be made to feel at home, so that he may make his start in the new land in good heart, are being obtained. As was pointed out by the Archdeacon recently, in making an appeal for £1500 to enable the work to be developed, and to provide furniture, much is done to help the immigrants when they land, which cannot be tabulated. The work of securing apartments, advice and information given, and the continual acts of courtesy and kindness, no one could desire to have numbered and registered.

We want our church people to feel at home from the onset. A new immigrant thus happily settled at once begins to advertise Australia in his letters. Of course, the church is not a place of admission to our home.

LAW REPORT.

BANCO COURT.

(Before Mr. Justice Gwynne and a jury of 4.)
ALLEGED BREACH OF AGREEMENT.
Stokes v. Co-operative Assurance Co., Ltd. Mr. James, instructed by Mr. F. J. McDonald, appeared for the plaintiff, and Mr. C. G. Wade, K.C., and Mr. A. Thomson, instructed by Messrs. Vindin and Littlejohn, for the defendant. The action, which has been pending a considerable period at the Darlinghurst Court, was brought by James Edward Stokes, a shipbroker, against the Co-operative Assurance Co., Ltd., to obtain compensation for alleged breach of agreement.

APPLICATIONS FOR HABEAS CORPUS.

QUESTION OF PROHIBITED IMMIGRANT.
Mr. Boyce, instructed by Messrs. Croft and Rhaden, of Melbourne (by their agents, Messrs. Deane and Deane), appeared for Laing Ah Coon and Ah Yon, Chinamen, detained at the Darlinghurst Court, and moved to make absolute a rule nisi for a writ of habeas corpus, and for the return of the appellants to the custody of Dr. Brinsford, instructed by Messrs. Deane and Deane, and Messrs. Deane and Deane, appeared for the respondent, not to oppose the motion but on the question of costs. The application in each case was made on the grounds: (1) that the appellants were naturalized British subjects, and entitled to the same rights as the respondents; (2) that the provisions of the Immigration Restriction Act do not apply to appellants, and that they are properly detained on board the vessel. Mr. Boyce said that appellants came from China, and were not allowed to land at Melbourne, and they were not allowed to land at Sydney. There was no time to do anything on their behalf in Melbourne, proceedings were taken there, and a rule nisi for a writ of habeas corpus was obtained from Mr. Justice Gwynne. Counsel also informed the Court that the Chinese were present, and also the Federal Customs authorities.

Odol

"It is impossible to over-estimate the importance of the teeth and mouth both as factors of health and as sources of disease. Every neglected decaying tooth in the mouth is a well-spring of poison in the body."

Odol does more than cleanse and beautify the teeth; it preserves them from decay; it refreshes the whole mouth to the point of exhilaration, keeps the gums healthy and free from tenderness, and delightfully perfumes the breath.

And by a remarkable property peculiar to Odol alone, it permeates the mucous membrane of the entire oral cavity with its antiseptic elements, leaving the mouth proof for hours afterwards against the attacks of injurious bacteria, which, if not guarded against, inevitably destroy the teeth.

Until science produced Odol the world was without a dentifrice that was capable of completely preventing or arresting dental decay, but when it was found that Odol really did this, its success became a matter of course, and quickly spread over every civilized region. Millions of bottles are now sold annually, and every month the sale largely increases.

Catarrh of Digestive Organs.

The soothing, healing and tonic properties of Angier's Emulsion eminently adapt it to the relief and cure of stomach and bowel disorders of a catarrhal, fermentative, ulcerative or tubercular nature. Simple and harmless, this remedy exercises its soothing, lubricating effects throughout the entire alimentary tract and is therefore of value wherever the inflammation may be seated. It arrests fermentation, checks bacterial growth and promotes normal healthy action of the bowels. Simple though its action may be, Angier's Emulsion has proved a most efficacious remedy in a wide variety of disorders such as gastric or intestinal catarrh, gastric ulcer, mucous colitis, chronic indigestion, nervous dyspepsia, chronic constipation, etc. It has proved its value in many obscure and obstinate cases. Those who, through leading sedentary lives, acquire the constipated habit, will find that the daily use of Angier's Emulsion will soon restore normal functional activity. It is also invaluable in chronic constipation of infants and children.

Angier's Emulsion

Catarrh of the Stomach. Gained 4 lbs. in one week.
25, O'Grady Street, Albert Park, Vic.
Dear Sirs,—I was suffering from catarrh of the stomach for a period of over four months and lost 16 lb. in weight. I used to have severe pains in the stomach after meals, and mouthfuls of water would come up and I could only get relief when the food itself came up. I decided to try Angier's Emulsion, and the first week after I began taking it I gained 4 lb., and soon went up to my usual weight. I am now able to eat my food without fear of the awful pains, and shall always feel most grateful for the relief I have gained from the Emulsion. (Signed) T. LOVELL.

Flatulent Dyspepsia. "Effect almost instantaneous."
27, Melville Street, Hawthorn, Melbourne.
Dear Sirs,—I have been suffering from acute dyspepsia accompanied by flatulence, which caused such pressure upon the heart as to make me think that organ was affected. I tried several remedies in succession without result. My husband then procured me a bottle of Angier's Emulsion and the effect was almost instantaneous. After three or four doses the stomach trouble was greatly relieved, and now, after the second bottle, I feel better and stronger than I have felt for months. I think the Emulsion is the ideal medicine for stomach complaints. (Signed) Mrs. WATKINS.

Ordered by the doctor for Indigestion and Catarrh.
40, Kentish-road, Handsworth, Birmingham.
Dear Sirs,—It is now about five years since Angier's Emulsion was recommended to me by a doctor, and I have found it invaluable for indigestion and catarrh as well as for many other ailments. I was very much run down when I first took it, but I improved immediately, and gained in weight 15 lb. in twelve weeks. I have recommended the Emulsion to several of my friends for various complaints with good results. It proved especially good for a friend who suffered from inflammation of the bowels, and was completely cured, and has been at work regularly ever since. (Signed) F. THOMPSON.

THE ANGIER CHEMICAL CO., Ltd., 7, Barrack Street, SYDNEY.

THE AUSTRALIAN XI.

THEIR REPUTATION GROWING.

THE DANGEROUS "LEO THEORY."

MORE PRAISE FOR MACARTNEY.

(FROM OUR SPECIAL CORRESPONDENT.)

LONDON, June 7.

The Australian Eleven has played two un-

finished matches this week. One of these

matches, that against Warwickshire, was

concluded with great interest by Australians

here, because it was the first game in which

the Australian XI met Foster, who is sure to

be bowling against them in the English test

match. Barnes, who will also bowl against

them, they will probably not meet until that

day, as he plays for a minor county.

It is only a question of time and some-

body will be killed in the field of one of

these leg theories. The reason is that the

almost makes that certain, and their practice

makes it quite so. It is difficult to hit on

the leg side without hitting into the air, and

consequently the batsmen are reduced to

the ball if possible between the leg and

the stumps. In order to get catches one line

of fielders is pushed in as close as they can

safely go to the batsman along the leg side,

and often a great deal of trouble. There is

an enormous amount of practice going on

in case the batsman starts hitting, and it is

calculated that he will not do so, or that

if he does he will only be able to get his

shoulders and let go, the ball will miss each

one of them, and the batsman will be saved.

Anyone who knows the difficulty of

slighting a ball coming straight for your face

at moderate range, when the ball does not

appear to move, but suddenly comes in, will

judge what sort of a chance some of the in-

field would have if a player with Macartney's

wrist began to take risks and hit at the

extraordinarily close range. I have four or

five letters from players who have been

travelling at a fair pace, but which they failed

to judge because it was coming straight

towards their eyes—one of these cases.

I have a county player who was seriously

injured.

The safety of the field when leg theories

are being applied to the theory of the

bowler is a very serious one, and it is

one doubt strongly if the bowler can safely be

allowed to bowl in this way. The orthodox

method of bowling is to bowl with both

legs, and this involves partly facing the

ball. With bowlers who bowl in this way

and in breaks, the batsman is apt to get a

particularly nasty blow if he misses the ball,

and it is quite conceivable that a strong bat-

man may be hit in the face, and the ball

swinging in the direction of one of these

narrow short legs. A man with Foster's

arm would be a very dangerous bowler, and

check this, but all leg theories have not that

command of the ball. On the other hand

the batsman is apt to get a particularly

nasty blow if he misses the ball, and it is

quite conceivable that a strong bat-

man may be hit in the face, and the ball

swinging in the direction of one of these

narrow short legs. A man with Foster's

arm would be a very dangerous bowler, and

check this, but all leg theories have not that

command of the ball. On the other hand

the batsman is apt to get a particularly

nasty blow if he misses the ball, and it is

quite conceivable that a strong bat-

man may be hit in the face, and the ball

swinging in the direction of one of these

narrow short legs. A man with Foster's

arm would be a very dangerous bowler, and

check this, but all leg theories have not that

command of the ball. On the other hand

the batsman is apt to get a particularly

nasty blow if he misses the ball, and it is

SUGAR INQUIRY.

The Minister for External Affairs,

was addressed by the chairman of the

committee on the subject of the sugar

industry, and the Minister replied that

he was not in a position to give any

definite answer at present, but that he

would consider the matter and report

to the committee at a later date.

The chairman thanked the Minister for

his reply, and the meeting adjourned.

The Minister for External Affairs,

was addressed by the chairman of the

committee on the subject of the sugar

**IF YOU
HAVE TEETH.**

If you have **TEETH** that are always aching and sore, don't you think they're better off IF YOU THINK they can come to me with the unusual assurance that there'll be NO PAIN whatever. In fact I'll so care and positive you must start a relief to relief.

FIFTY POUNDS

if there's any during
the Extraction. Surely such an offer
must convince you, no matter
how nervous you may be.

HERE ALL DAY SATURDAY.

**SNOW'S—UP TO
SAMPLE."**

Celina Hegarty had a smile on her face and three layers of skin.

In answering a matrimonial advertisement she mailed a portrait of herself from which the wrinkles were erased and the male pointed out.

Celina Hegarty is still "on the shelf"—she submitted a sample of goods she could not deliver.

SNOW'S

many new bargains unless they are here. Their stock is all that is so plentiful of its kind, and it is becoming a matter of widespread notice that Spaul's suitery prices are as low as other suit prices.

Spaul's French suitery is of the kind usually sold at 2 to 4 yards—some at 1½ yards. You may obtain these in French and English designs, fast colors, and in Oriental designs—in shades of Navy, Red, Brown, Green, and Violet Blue. What could be more serviceable and dainty for blouse and jacket.

These All-Work French Delaines include many good blooming designs in floral and fancy stripes. They were marked at a low price on account of a merchant being overstocked. They are now marked 1½ yards formerly they were from 1½ to 1½ yards.

Take ADVANTAGE OF THIS PLAN.

Snow's recently received two cases of All Wool French Coating Serge. This serge is in Navy only, and is 42" wide. For everyday wear or for a costume this material could not be surpassed. It is fully worth 2/6 yard, and priced only 1/11 yard.

A superior quality in the same make is 40in wide and 2/6 yard.

Have you seen Snow's wonderful assortment of Grey Tweeds at 1/4 yard? We have just added another 50 pieces, and have averaged the prices, and now all these tweeds are being sold at 1/4 yard.

AWAY FROM THE CITY.

Country Residents benefit by

Snow's Bargains. Moreover, they find their Mail Order Department yields every satisfaction. If not, the article may be returned and money is refunded. Freight is paid to any part of N.&W.
